Dear FDA,

1254 '99 MAY 21 AM 10:21

I am concerned about Docket #98N-1038M. I would like to request that irradiated foods be required to show prominent labeling using the terms "irradiation" or "irradiated" and the use of the radura symbol. I feel proposed alternative terms such as "cold pasteurization" and "electronic pasteurization" are misleading and should not be used.

The absence of a statement would be misleading because irradiation destroys nitamine and cause changes in sensory and spoilage qualities that are not obvious or expected by the consumer.

Thank you for your consideration.

Sandra Brentlaw
